*"We would like to thank you for coming to the girls basketball camp to speak with girls about consistently playing at the top of their game. When you spoke about having the right mindset, mood, and motivation to stay at the top of the game, I noticed the girls were very attentive and focused on the message you were conveying. Having the right attitude to reflect a positive spirit is very powerful! The girls absorbed the information and brought a different attitude to camp the remainder of the time."*
